15	able to acces through link	Passed

Application: ParkMate

low and convert/include link to Wiki Or readme.md (GitHub)

Scenario

Opening Glazes home page live stream first attempt failed due to lack of styling or visual presntatsion of the website it self

Opening Glazes home page live stream second atttempt faild as a preview of glazes clothing e-commerce was only shown

Opening Glazes home page you can see colors and the font's have changed size and shape there are option tabs for womens and mens Using the navigation manu to select Products, Orders and home page again. All pages are working and im able to see prices and order with input fields for users information

I am able to type and click on the search bar and button itself and i am able to type

We are able to in put informaton into the order fields

Copy right Warning on the bottom of the wb page

No photos of products

Product photos, icons are uploaded

able to search the iteam on the website

Every thing works

Every thing works

Every thing works

Every thing works

Every thing works

Remarks

More styling and editing

Confused on what i was looking at.
Nice home page but could use more
color

Would like another color

added photo or icons will look nice
